## "Take Your Tyme"

Y'all don't know? Y'all don't know your body is a temple?

A temple to the living God? Don't get gassed y'all

All my sisters out there, here's the truth

You, a you've got to.. {TAKE.. YOUR.. TIME}

Look, look!

You don't want no unsteady relationships, you want it tight

You don't want no man beggin and always gonna get, am I right?

You don't want no man sleepin cheatin freakin behind his wife

There's no such thing as make love, it's really make life

I don't care what nobody say; you sleep with a man, that's your husband

So make sure, before you lay down, you love him

And learn him, yes it's still sacred to be a virgin

Relax, it's curiosity that always burns 'em in fact

Sex is like candy, be disciplined, no splurgin

You don't want your stomach hurtin

Girl, you gotta.. {TAKE.. YOUR.. TIME}

Listen!

Cash is an issue with that he can never diss you

Even if he makes you cry, you bought your own tissue

witcha own case, witcha own hand, wipe ya own face

And throw him out, no doubt, out of your own place

If your heart is broken you can mend it

If you're independent, your womanhood, that's when you defend it

Just.. uhh, just {TAKE.. YOUR.. TIME} woo!

Look!

{TAKE.. YOUR.. TIME}

Don't come witcha hand always out

If he buys you somethin thank him, but that's not what a man is about

Real men are real friends, showin their real commitment

He tells you he really loves you, a boy can't really admit it

If a man really wants you, that man really flaunts you

In public or private a real man really supports you

'Member what Guru taught you? Of course you "Royalty"

You dress how you like when a QUEEN is what you ought to be

and ought to act like, and also ought to manifest

How you dress makes you constantly blessed, or constantly stressed

{TAKE.. YOUR.. TIME} Yo!

{TAKE.. YOUR.. TIME}

Yo, yo

So while you burnin off those calories, think about reality  
Get a skill for the salary, a man for the family  
Not a boy, that's a catastrophe, don't get mad at me  
Instead of always clubbin visit museums and art galleries  
Pick the single man, admirin the ancient sculpture  
He's cultured, chances are he won't insult ya  
Give him your number only after you know what he does  
Ask him what it is, not what it was  
You want the good life (GOOD LIFE)  
You want the good life (GOOD LIFE)  
You want the, you want the, you want the  
C'mon, you gotta {TAKE.. YOUR.. TIME}
